FROM PRINCIPAL'S DESK

Dear parents and my dear students,

The Olympics at Tokyo just got over and it seems to be the right thing to write about. At this Olympics games due to the pandemic people were not together. Spectators were kept at bay. Athletes were kept masked as per the rules. Mental health took precedent. Yet the athletes reveal their stories and struggles in a vulnerable but with a strong competitive spirit. The men's hockey team brought home a medal after 41 years. The ladies hockey team fought valiantly but did not win a medal. The captain of this team has a story which is worth a mention in this newsletter. It is the story of grit perseverance and resilience.

Rani's father worked as a cart-puller in **Shahabad Markanda**, Haryana. Her father would sell bricks in a horse cart and would end up earning mere INR 4 or 5 on some days. It, thus, became difficult for the family to have three meals everyday and they were sometimes forced to make do with one.

Rani developed an interest in the sport at the age of seven. But her parents were hesitant about the idea and the neighbours and relatives were against the choice. This young girl would use a broken hockey stick and dribble the ball wearing a salwar kameez.

Rani succeeded in persuading her family to allow her to take up the sport, training was not easy due to her financial struggles..

She was, however, supported by her mentor and first coach - Baldev Singh - the ex coach of Shahabad Hockey Academy (SHA) who bought her kits, jerseys, equipment and even helped her dietary requirements. In one of her interviews, she said that her family could not afford the 500 ml milk so she would add water to the 250 ml and make it 500ml.

Rani emerged as the first-ever hockey player to win the **World Games Athlete of the Year** award. She is Inspired by Mary Kom. This my dear students is GRIT or better still called fire in the belly. Let this story be your role model. When you wholeheartedly pursue your goals you are bound to reach it.

To relate these thoughts here is yet another story from the animal kingdom. There was an elephant which was the favourite of the king who had won many a war riding on this elephant. Over a period of time, the elephant became old and could not go to the war any more. One day, it got stuck in a marshy land and could not extricate itself. The king tried all kinds of techniques to save the elephant but did not succeed. The chief minister arrived with a team who started playing the war drums. Soon there was a change in the elephant. True enough, it managed to get out of the marshy land. This also tells us the power of the mind over action. Believe in yourself and work towards thee target with a purpose.

May these stories inspire you to spur ahead and achieve laurels for yourself and to your country.

MATH OLYMPIAD

6th International Mental Maths Olympiad (iMMO) 2021 organised by Mind Power Education LLP

Our School has also won **"Best School Award"** with Rank 19.

This Olympiad is conducted in three phases.

All over India 5246 students participated from 360 schools. From Mumbai around 27 schools participated.

Master Arnav Karmarkar – won 1st class in Gamma group in level 2 and was given National Champion Trophy, School Gold Medal & Certificate of Excellence. PPSK is proud of you Arnav Karmarkar.

The subtopics of Self-motivation and Emotional stability of PE were taken up in a workshop for the entire grade X.

The session started with a short video of Rajesh Khanna and Sharmila Tagore to initiate discussion on types of crushes and in particular to recognise celebrity crush.

Movie clips from Chak De! India and Bhag Milkha Bhag were shared to understand how self-motivation and emotional stability are necessary. Grade 10 students understood the importance of time management, punctuality, discipline, and many more such values to keep themselves self-motivated.

They also learnt how to tackle peer pressure, mood-swings, crushes, infatuation which is very common and normal at their age.

“ SEEK AND KNOCK' – Questioning skills

30 March 2021, Dr Pramila Kudva conducted an interactive upskilling workshop for teachers of all three sections on 'Questioning Skills'

It covered topics like importance of questioning in teaching learning process, how to ask good thought provoking questions, effect of wait time, etc

Group activities through Breakout room and padlets were part of the session. It was perceived by the teachers that good questions need thinking and are to be practised.

How many questions do you think you ask each day in class that elicit good answers?

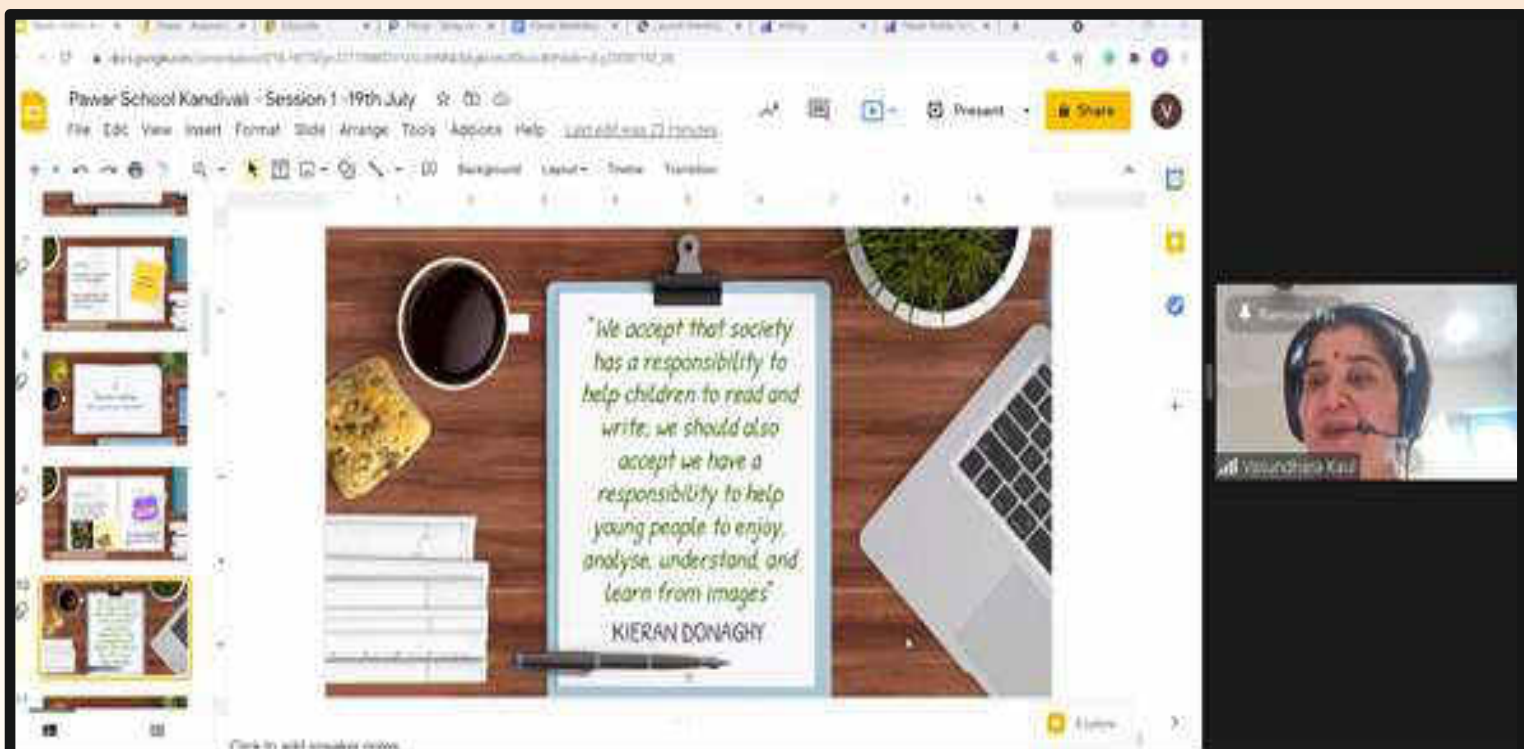

Grade 10 License 1

Designing Evaluation for the Education

Up skilling of teachers has always been a significant component of our school. This year a workshop on assessment was conducted by Vasundhara Kaul as a part of the PhD programme for teachers of grade 5 to 7. She dealt at length with two aspects of assessment: assessment for learning and assessment of learning; the third component assessment as learning was not covered adequately. She would be conducting a few more workshops as a part of her PhD requirement.

EUMIND 'Annual General Meet'

Was conducted via Zoom on 4th June, 2021. It was attended by: Ms. Pritam, Ms. Marina from our school.

Pawar Public School, Kandivali is a proud member of the EUMIND group for the last 5 years. EUMIND is a network of schools in India and Europe that organizes activities to promote intercultural learning, global citizenship, social responsibility and ecological awareness.

5 participating groups of our school bagged the Excellence awards for their project on Onstage.

4 participating groups of our school bagged the Excellence awards for their project on Math.

1 participating groups of our school bagged the Good practice awards for their project on Math.

-Ms. Pritam Bhise & Ms. Marina Marchon.

GURU POORNIMA

A Guru is a person who delivers knowledge and imparts wisdom to his and her disciples .A Guru is someone who teaches life lessons and leads us to a path of Glory. On the auspicious day of Guru Poornima, Marathi and Hindi Department organised various activities in their Online Zoom sessions. It consisted of Video on Guru Stuti, Shlok/ Prayer for Guru vandana, Poem Recitation on Guru, Expression of thoughts on Importance of Guru in our life, Thank you Card for Guru etc. All the students got the platform to show their gratitude towards their Guru. The students did an excellent task of sharing their thoughts through various activities as they know that Guru is like a candle, it consumes itself to light the way for others.

Marathi and Hindi Department

INTERNATIONAL YOGA DAY

Yoga week celebration in Pawar Public School, Kandivali

The 7th International Day of Yoga 2021, "Yoga for well-being", was celebrated on a virtual platform during the online PHYSICAL EDUCATION class dated 21th June to 25th June 2021 at Pawar Public School Kandivali. Students from pre-primary and grade 1 to 10 performed different asanas under the guidance of PE teachers. Our PE teachers provided information about 'Yoga Day' and Importance of Yoga in our day-to-day life.

There was also a special yoga day celebration for teachers on Friday 25th June 2021 which lasted an hour.

Mr. Rojer Ghonsalves

INTERNATIONAL YOGA DAY

INTERNATIONAL YOGA DAY

INTERNATIONAL YOGA DAY

Gazala

9B 9 Jinanshi gala

On 16th March 2021, Students of grade 5 presented the assembly in a novel way on zoom session. The assembly focused on the importance of values like honesty, thankfulness, forgiveness and patience. The students, teachers and parents enjoyed the show. At the end of the show Principal Ma'am congratulated the grade 5 students on presenting this amazing assembly. Our head mistress Cecilia ma'am also gave a special message and a provided a concluding note. After the assembly grade 5 teachers spoke to each and every child of their respective class and wished them luck for the coming years.

Master Aakash Ahuja VIII A had participated in it and made a small place for himself in record making.

This event also featured in Zee Business News. 440 Participants + 3 Logical Cubes paved their way to Asia Book of Records and India Book of Records.

Congratulations to Apulki. Keep up the environmental crusade.

HOPE IN...

Students of primary and secondary have actively participated on the topic given.
"Hope in peace"

Students have made Art work, poster, digital Art and written poems.

Topic: Hope In Ourselves

Chirag Sharma, 5D Roll no 20

Hello my respective teachers,
We all know
that because of this covid situation people
can't go outside. But we should utilize
this time as much as we can,
it's not easy, but it is possible, and
thanks to our doctors, nurses and police as they
are helping us. In this situation we should
spend time with our parents, play indoor games,
and do yoga. As we are sitting here we should keep
hope in ourselves and motivate others. We have to also
take vaccine.

Thankyou!

Stay home stay safe

2B Prasiddhi Bhuvad

शुभ रात्री

रात्री,
मीजेक पाहिले आकाशाकडे,
चंद्राने तेका वसुन पाहिले माझ्याकडे,
तारे होते डोळे मिचकावत,
जाणि वाऱ्याची झुळुक होती शिंदी वाजवत,
जणू काही इच्छा होती त्या सर्वांची,
मला शुभ रात्री बोलण्याची

~ रुद्र चणेकर

3A Rudra Chanekar

HOPE IN...

Hope in Ourselves

Hope the word itself is meant for releasing a sense of confidence to tackle events/circumstances in one's life. In current times of pandemic where human life has experienced irreparable losses, the only way forward to the future is combination of hope + efforts. Hope in ourselves that we will definitely get past the pandemic together. And while doing so making sure that we also lend support to the ones in need and act as a ray of 'HOPE' for them, so in future they tend to imbibe Hope in their own selves resulting into being a ray of 'HOPE' for others in future

1B Krishika Devani

Hope in Ourselves

This is the time to be aware of the difference between what is original and true in us and what is acquired and false. It is this awareness of our original goodness and truth that will give us hope. If we don't have hope in ourselves, we can't keep hopes for anyone else. Without the hope and zeal to do something good in our lives, we are just moving along as the world wants us to, and the truth that is deeply embedded inside becomes lost to us.

Truth is a very powerful energy and when we connect to the one up above who is the truth, we draw that energy down into us, and we recognise that falsehood is separate from us. We realize that wasteful and negative things do not belong to us and rob us of our hope. How do we free ourselves from falsehood?

It is important to act well, rather than talking a lot and not doing what you say. Look at the quality of your life, and see where you are wasting your life. Once you know about good mental conduct and good actions, then you will know what waste is. Live a simple life, and become a sample for others. Keep your thoughts simple, and use your time well. Live simply and eradicate all waste thought from your mind.

5A Vihaan Mulik

HOPE IN...

HOPE IN OURSELVES

The beat of life
is fall and escalate.
Hope in ourselves
brings us solace

Hope is the cure,
of each one's pain.
If it is pulverized,
it gets impossible to sustain.

The Pandavas in the myth,
had faith in themselves,
which helped them conquer,
the throne of the cruel elves

Hope gives us light,
even in the darkest night.
It motivates us right,
in every situation we might.

Promises can break,
the heart can be broken,
But hope in ourselves
Is always unspoken.

It is upon us,
either give up or keep striving.
take a deep breath
and keep diving.

THANK YOU

8A leisha Parekh

Peace is what we hope for.

Here destruction, There turmoil,
Exchange of hostility, everything is spoilt.
Some suffering, some others provoking,
It grieves me to see all the loathe it is soaking.

But, there will be a time when all of this would be gone,
There will be peace, healing all the wounds that hate has torn.
How calming in and out, How soothing it would be,
No screams, No shouts, we shall set our vices free.

Keep up the hope, these days will end soon,
Just like the sun appears after every moon.
Let us all pray, our sun brings peace,
Someday soon the destruction will cease.

8B Reva Agal

Hope in Inherent goodness

Every action of our lives touches on some chord that will vibrate in eternity. This principle of cause and effect, wherein intents and actions of individuals influence their future, is called Karma.

We often make good decisions and be kind to receive goodwill in turn. Despite being scrupulous, there are times when we are treated with repugnance and impertinence. That is when we start feeling dejected. In that case, should our kindness be dependent on the reactions of the receiver? If all our actions are actually a result of calculations, would they be justified?

Goodness comes naturally; it cannot be enforced. If something good is done out of force, it is just a deed without intent. The good lies in everyone, it just has to be unearthed.

Remember, doing the right thing may not always yield a good harvest. That does not deter you from sowing in the next season. Do not let the fear of the future or regret of the past determine your present.

Doing righteous things is like running on a treadmill. You put in your effort, yet you do not seem to move forward. It benefits in the long run though.

॥ वसुंधरा दिन कार्यक्रम मराठी भाषण ॥

॥ करून रक्षण पयाविरणाचे

हीडल कल्याण मानवाचे

॥ झाडे लावा निसर्ग वाचवा ॥

झाडे लावा थूप, शांवेन जमिनीची थूप ॥

२२ एप्रिल हा दीवस वसुंधरा दिन म्हणून साजरा केल्या जातो. आम्हालाही या दिवसाचे महत्व कळवे म्हणून आमच्या शिक्षकांनी आम्हाला मावडेल त्या भाषेत भाषेत भाषण लिहायला सांगितले आहे. या दिवसाची संकल्पना गेलार्ड नेलसन यांनी मांडली.

पृथ्वी अश्वति वसुंधरा आपली आईच ! ती अश्वदी आपल्या आईसाखी निश्वाश भावनेने काळजी घेते. कुठल्याही अपेक्षेविना आपल्याला फक्त चांगलच देत राहते. जसे झाडांपासून फळे, फुले, मळधान्य अश्व्या अनेक जिवनमावश्यक वस्तू देते. झाडांपासून प्राणवायू जो माणसाला जगण्यासाठी अतिशय मावश्यक आहे.

पण निसर्गाने नदविलेल्या या जगात माणसाने घरे बांधली. स्वतःची वेगळी प्रतिसृष्टी निमणि केली. स्वतःच्या कुष्टी आणि कार्यक्षमतेच्या बळावर माणूस निसर्गाचा स्वामी झाल्यासारखे वागू लागला.

अहंकारी मानवाने अविचाराने निसर्गाचे शोषण सुरूच ठेवले आणि त्यातूनच एवढा शोषण शोकांतीक सुरूवात झाली.

आपण वसुंधरा दीन का साजरा करतो ? याचे उत्तर असे की वाढत्या शहरीकरणाचा आणि औद्योगिकीकरणाचा सर्वाधिक परिणाम आपल्यावर होतोय तसाच तो निसर्गावरही होतो आहे. अश्वुद्ध हवा, कश्यान्यातील दुषित पाणी नदी, समुद्र यात सीवून त्यातील जलचर प्राण्यांनाही हाणी पोहोचवली. झाडे तोडून त्या जागेवर मोठमोठ्या इमारती उभ्या केल्या. जंगले तोडली. असेच चालू राहिले तर नवी पिढी कशी जमणार ?

अजूनही वेळे वेळ गेलेली नाही. झाडे नांहीत पाऊस नाही. हे दुष्टचक्र कुठे तरी थांबायलाच हवे. आपली घरणीमाता, हवा, पाणी याचे संरक्षण आपणच करायला हवे. याची सुरूवात स्वतःपासून करायची आहे.

वृक्षावल्ली. आम्हां सीयरी वनचरे, असे संत तुकाराम महाराजांनी लिहूनच ठेवले आहे.

वसुंधरा दिनाच्या निमित्त्याने हा संदेश देता येईल. जगा आणि जगू द्या.

वसुंधरा

एका रात्री स्वप्नात माझ्या आली वसुंधरा,
डोळ्यांत नीच्या पाणी घळाघळा,
म्हणते कशी मला ??
मानवाने लावली आहे मला उतरती कळा !!!

कपडे कुशीत माझे धड ना राहिले,
हुवान मानवाने माझे लचकेच तोडले !!
मळली माझी काया जीथे, तीथे
घेताच श्वास मला आज धाण लागे !!

तीची दृष्टा पैकून मन माझे दूबले,
स्वप्नातच मला जीवनातले खरे सुख गवसले.

उचलून भार तुमचा झकली वसुंधरा,
भार प्रदूषणाचा आता पुरे करा, पुरे करा !!!
मुले जसे आईच्या कुशीत निजते
वसुंधरा आपली फुलांत सजते

टोडे लावा, झाडे जगावा सांगते तुम्हास अस्मी
हीच आहेत आपली आयुष्यातली लक्ष्मी !!!
समृद्ध वसुंधरा आहे एक वरदान,
चला मिळून सारे देऊ योगदान.

आरे मानवा, तुच आहे फ्रमेव दारतीचा आधार ;
वृक्ष-वनांना जगवून तुच हो त्यांचा तारणहार .
पुढची पीढी आहे प्रेमाची, होस ना त्यांना कशाचीच ;
पृथ्वी आपले घर आहे, तीला नष्ट करू नका

शेजाच्या पीढीला जन्माअगोदरच नष्ट करू नका !!!

समतेत राखू पर्यावरण ह्यामानाचा,
संरक्षण करू समृद्ध वसुंधरेच्या रक्षणाचा !
जल, वायू प्लूट्ट होले, अनिरेक आवश,
दिनी आजच्या तरी रे, संरक्ष्य ह्या घरा !!

- अस्मी शंखे

EARTH DAY

An occasion to instil environmental awareness through Earth Day was undertaken successfully. Enjoy the articles written by the budding authors

Environment literacy means to maintain and improve the environmental system so that the future generations can know more about it and pursue it. In simple words, the way we treat the environment, the environment will treat us the same way. Many people still do not consider taking care of the environment. So, to educate them and make them more devoted to taking care of the environment I have come up with a plan.

My plan is to keep monthly contests and competitions related to nature and environment. In which we can include all the students of my school, my friends, my neighbours and their parents too. And the contests should be held in a fun and interactive manner. We will also give a gift related to the environment to the winner. This will make them more eager to do the right thing towards the nature and environment.

Some types of contests are

1. Greenery Contest : in this contest the participants have to plant and water as many trees as possible in a month. They have to click pictures of their sprouts and send as evidence. The one with the maximum number of sprouted plants will get a price.
2. Pollution Under Control (after pandemic):
In this contest participants have to reduce the pollution by riding cycles or walking short distances. They have to click pictures as evidence.
3. Let's Draw: we can also keep a drawing competition in which participants have to draw on a selected theme based on the environment and nature the participant with the most meaningful drawing will win the price.
4. Lets know more: this isn't a contest but a fun and interesting way to learn more about the environment and nature along with fun amazing facts and activities.
5. Quiz time: we can also organise an online quiz about nature and environment.
With these type of contests and fun activities we can add more and more people in the team 'Save Environment'.

Yana Bhandary
Grade 8

EARTH DAY

A Plan for Environmental Literacy

“Be the Change you want to see in the World”, this beautiful quote by Mahatma Gandhi can be a great start to the plan. Hence, our first step for the execution of the plan should start from our house itself.

Educate and practice, that is the only way it can be inculcated into the psyche of people. The first basic step should be to make people aware of Environmental Literacy.

What is Environmental Literacy?

Environmental literacy (also referred to as Eco literacy) is the ability to understand the natural systems that make life on earth possible. To be Eco literate means understanding the principles of organization of ecological communities (i.e., ecosystems) and using those principles for creating sustainable human communities.

An environmentally literate society would be a sustainable society that does not destroy the natural environment on which they depend. Environmental literacy is a powerful concept as it creates a foundation for an integrated approach to environmental problems.

It is an individual's understanding, skills, and motivation to make responsible decisions that consider his or her relationships to natural systems, communities, and future generations.

The three R's to a healthy environment- Reduce, Reuse and Recycle shall be adopted by each citizen. We can also outspread the awareness of this good cause towards the environment by social media, which is one of the fastest and most used applications nowadays. There are many social media sites like Instagram, Facebook, Whatsapp, Snapchat, Twitter, Linked In, etc. Here is a detailed plan for promoting Environmental Literacy among people through Social Media:

- ☐ We shall register on different social media applications and try to promote Eco literacy through them. The first step should be to showcase what we do.
- ☐ We shall post and spread more knowledge about environmental literacy, and different ways of promoting it. Many features like reels, videos, images, graphics, text and stories, which are supported by social media sites can also be used to enhance the presentation of our good thoughts and ideas.
- ☐ We can also ensure the promotion of eco literacy among people by creating large groups, including members who are interested in making citizens aware of environmental literacy, and wish to participate for saving nature and Mother Earth.
- ☐ Different activities and engaging programs can be organized like online campaigns and workshops, poster making contests and art challenges depicting importance of nature. Winners and participants can be awarded and all the work can be shared through social media to boost the enthusiasm and confidence in everyone.

This plan would also support the current conditions of the ongoing pandemic as the plan would be executed online and safely. Looking forward for the rapid progress in promoting Environmental Literacy in the society.

Adhya Kannani
Grade 8 B

EARTH DAY

ENVIRONMENTAL LITERACY

Environmental Literacy is the ability to understand how we and what we do through obtaining resources affects our environments here and around the world.

WHY IT IS IMPORTANT

It is important for us to realize that our resources are depletable and how we obtain, these resources affect our environment on a global scale. We are part of a large ecosystem in which almost everything is self-dependent on each other. Any changes in the food chain/climate can cause a catastrophe

Ways to promote environmental literacy amongst people

By increasing awareness and concern, education can encourage people to reduce their impact on the environment through more efficient use of energy and water supplies, especially in areas of resource scarcity.

For example:-

Educated farmers were more likely to use rainwater harvesting and supplementary irrigation technology to alleviate water shortages. Educated households are also more likely to use different methods of water purification through filtering or boiling.

Smaller yet efficient Ways to save Long Term Impact on Environment

- Use environment friendly products such as energy star products.
- Eat a balanced meal. Makes you feel efficient as well.
- Walk or ride bicycle instead of driving
- Recycle cans, paper, and glass
- Reuse Cups
- Take quick showers and don't let the water run while you brush your teeth
- Turn off any electricity appliance you are not using
- When you have to drive, carpool

We all can use 3 R's to promote Environmental Literacy

- Reduce Waste
- Reuse Resources
- Recycle Materials

Detailed Plan about promotion of Environmental Literacy amongst School students about how to reduce waste

- Bring your own bags out shopping.
- Use reusable storage bags, plates, water. Bottles etc.
- Every year, we students buy a new set of supplies such as books, stationery, and uniforms. Salvage unused paper and use it for rough work.
- Encourage students to bring only how much is required for them and avoid food waste.
- **Reduce use of Plastic** We students can switch to Metal Lunch Boxes and Copper Water bottles
- **Eco-friendly Stationery** - Encourage students and parents to switch to pencils made of recycled newspaper and card-boards. Make it a point to use waste-free stationery like ink pens, wooden rulers, etc.

CONDOLENCE

Mr. Rajaram Bagul, working as Peon cum Driver passed away on 19th June 2021. A zoom staff meeting for condolence was arranged on 23 June 2021. Staff members shared their thoughts, prayer and bhajan was presented by Music teachers. Photos were compiled and a movie was made. Recording of the meeting was given to his wife Vaishali. We pray that the Almighty provides enough strength to the family to bear this loss and pray that his soul RIP.
